

Huhtamaki Expands Use of Mainsaver

San Diego, CA – June 22, 2017: Huhtamaki Inc. continued to expand its use of the Mainsaver product throughout its United States based disposable and flexible packaging facilities. Mainsaver was recently implemented at Huhtamaki's Goodyear, Arizona facility and will now join the approximately 15 other Huhtamaki sites using the Mainsaver product. Huhtamaki recently acquired the 750,000 square-foot facility at the Cotton Lane Commerce Park to expand its production of foodservice packaging and retail tableware markets, producing paper cups, pressed paperboard plates and thermoformed plastic cups.

As with other Huhtamaki plants, Goodyear will utilize Mainsaver for Work Order Processing, Preventive Maintenance Management, Spare Parts Inventory Management, and MRO Purchasing. The Goodyear plant will also take advantage of a comprehensive interface to their BPCS financial system to provide seamless financial transaction data.

About Huhtamaki

Huhtamaki is a Finland based company that incorporates 71 manufacturing facilities in 34 countries. Huhtamaki specializes in the production of paper and plastic cups, plates and bowls, cutlery, and disposable takeout packaging for quick service restaurants. Of particular note, Huhtamaki produces Chinet®, America's No. 1 premium disposable tableware brand.

About Mainsaver

Mainsaver offers a complete Enterprise Asset Management Solution with a robust Computerized Maintenance Management System (CMMS) at its core. As one of the industry's foremost established CMMS suppliers, Mainsaver provides solid software applications, trusted consulting services, and comprehensive customer support to its clients. Our solutions are designed to provide a maximum return on investment, whether installed as a standalone application, or as an "end to end" solution interfaced to any of today's popular ERP, MRP or financial packages.
