

Medtronic adds Mainsaver to Irvine Covidien EV3 Campus

San Diego, CA – May 15, 2017: Medtronic is one of the largest medical device manufacturers in the world with 88,000 employees worldwide. Mainsaver Enterprise Asset Management software is utilized in over 20 Medtronic locations both in the US and abroad. Mainsaver is an essential tool in the Medtronic mission to provide world class manufacturing and office facilities to the workforce. Mainsaver was recently implemented in the Irvine Covidien EV3 campus which manufactures devices for balloon and stent angioplasty as well as other therapies to treat peripheral arterial disease.

A Mainsaver work request web page will be used for all employees to originate maintenance tickets which are routed by email to appropriate personnel based on the type of work for approval. The resulting work orders will be electronically assigned to skilled trades and tracked to completion. Email alerts will be sent as work orders approach their due date and also to update requesters when their work is complete. PM work orders will automatically generate once they hit their release date.

The Mainsaver system provides a total solution for work management including adherence to the CFR 21 Part 11 for electronic signature. The Mainsaver Connect Mobility module will allow the skilled trades too enter and manage work orders at the point of work utilizing tablets.
