

Lifecore Biomedical to Implement Mainsaver Connect

San Diego, CA – March 1, 2017: Mainsaver Software is pleased to announce that Lifecore Biomedical, Inc. will implement the Mainsaver Connect Mobile application at its Chaska, MN facility. Lifecore Biomedical is engaged in the development, manufacturing and marketing of specialty medical products in the areas of ophthalmology and orthopedics. It currently uses the core Mainsaver CMMS application to manage both its corrective and preventive maintenance program. Lifecore will now add Connect to its compliment of Mainsaver products, giving their Maintenance Technicians the ability to process work requests and work orders directly from the field via tablet computers and other handheld mobile devices

About Lifecore Biomedical

Established in 1965, Lifecore Biomedical is a wholly-owned subsidiary of Landec Corporation. It manufactures hyaluronan and other biomaterials into finished aseptically filled dose products for various medical applications, including ophthalmology, orthopedics, oncology and veterinary markets. The company's products have improved the lives of over 50 million patients worldwide.

About Mainsaver

Mainsaver offers a complete Enterprise Asset Management Solution with a robust Computerized Maintenance Management System (CMMS) at its core. As one of the industry's foremost established CMMS suppliers, Mainsaver provides solid software applications, trusted consulting services, and comprehensive customer support to its clients. Our solutions are designed to provide a maximum return on investment, whether installed as a standalone application, or as an "end to end" solution interfaced to any of today's popular ERP, MRP or financial packages.
