

## **Occidental College Implements Mainsaver Connect**

**San Diego, CA – January 24, 2017:** The Facilities Management department of Occidental College (Oxy) in Los Angeles set an objective to put Mainsaver in the hands of Maintenance techs at the location where work is completed. In order to accomplish this goal Oxy added the Mainsaver Connect Mobility module to the existing Mainsaver Enterprise Asset Management system.

The picturesque campus on 120 acres has been utilized for many TV shows such as 'Beverly Hills 90210' and movies including the 'Star Trek' and 'Jurassic Park' series. Maintaining over 50 buildings and facilities is a team effort. This team is made up of;

- Faculty and Administration that may enter work requests through Mainsaver Connect. Photos may be added from a device to help explain a facility issue.
- The Facilities Management group which includes;
  - The Maintenance Shops
  - Purchasing and Materials Group
  - Maintenance Administration

The addition of Mainsaver Connect expands the utilization of Mainsaver to the Mobile Workforce on this wireless campus. As work is completed, so will the corresponding work orders in the system. Mainsaver Connect allows the trades to quickly locate and review assigned work orders and add completion information.

Mainsaver is also integrated with Oxy's email system allowing the approval of work and/or purchase request on a smartphone or tablet.

The addition of Mainsaver Connect will help the Facilities Management group to better manage the backlog of work orders and provide excellent customer service.

The screenshot shows the Mainsaver Connect Work Order interface. The browser address bar displays the URL: https://work.mainsaver.com/ConnectUI127103006/?cn=eam1431. The page title is "Connect by mainsaver Work Order" and the user is logged in as "UNC School of the Arts". The navigation menu includes Dashboard, Work Order, Work Request, Material Transactions, Routes, Purchase Order, Settings, and Help. The main content area shows a list of work orders with columns for Work Order, Status, Work Requested, Asset N..., Asset Short Description, and Asset Location. The work orders are grouped by Asset Number: 033, 006, and 089. The first group (Asset Number: 033) has two work orders: 122974 and 122973. The second group (Asset Number: 006) has two work orders: 122972 and 122971. The third group (Asset Number: 089) is partially visible. The page footer shows "15 items per page" and "1 - 15 of 364 items".

### **About Occidental College**

A place of intimate scale and infinite scope.

For more than 125 years, our tight-knit community of students and scholars has come together in the heart of Los Angeles, one of the most stimulating and creative cities in the world. A leader in the liberal arts and sciences.

One of the original campuses where Upward Bound got its start and home of one of the first West Coast chapters of Phi Beta Kappa, Oxy boasts a firmly rooted tradition of academic achievement and dedicated community service. Our students go on to become leaders in their fields—pursuing graduate degrees and careers in politics, diving headfirst into the Hollywood hustle and breaking new ground in medical research.

### **About Mainsaver**

Mainsaver offers a complete Enterprise Asset Management Solution with a robust Computerized Maintenance Management System (CMMS) at its core. As one of the industry's foremost established CMMS suppliers, Mainsaver provides solid software applications, trusted consulting services, and comprehensive customer support to its clients. Our solutions are designed to provide a maximum return on investment, whether installed as a standalone application, or as an “end to end” solution interfaced to any of today’s popular ERP, MRP or financial packages.
