

Mainsaver Software Participates in SMRP 2019 Phoenix Symposium

San Diego, CA – July 9, 2019: The Society for Maintenance & Reliability Professionals held a Symposium in Phoenix, AZ on June 26 and 27. The Symposium was a compressed version of the SMRP annual conference that offers 16 sessions across the 5 pillars of knowledge SMRP uses to organize maintenance and reliability concepts:

1. Business and Management
2. Manufacturing Process Reliability
3. Equipment Reliability
4. Organization and Leadership
5. Work Management

Mainsaver Professional Services staff member Robert Garbus will present his paper “How Barcodes and QR Codes May be Integrated with Work and Material Management”. This session will explain how 1D and 2D barcodes may be used to benefit the maintenance organization. Attendees will be shown how to create and print barcode labels and how the use smart devices to link equipment with valuable documentation.

About SMRP

Founded in 1992, the Society for Maintenance & Reliability Professionals is a 7,000 member professional society formed to develop and promote excellence in the maintenance, reliability and physical asset management profession. SMRP members consist of engineers, operations managers, repair and reliability technicians, worksite and project planners and other service providers.

About Mainsaver

Mainsaver offers a complete Enterprise Asset Management Solution with a robust Computerized Maintenance Management System (CMMS) at its core. As one of the industry's foremost established CMMS suppliers, Mainsaver provides solid software applications, trusted consulting services, and comprehensive customer support to its clients. Our solutions are designed to provide a maximum return on investment, whether installed as a standalone application, or as an “end to end” solution interfaced to any of today’s popular ERP, MRP or financial packages.
